

How our facility is keeping our clients safe from COVID-19

Choices Women's Center is prepared for the arrival of our clients. We are committed to keeping our clients safe and are taking the following steps to reduce risk of COVID-19 in our clients and our staff:

- * We are providing extra training for our staff and education for our clients about the importance of hand hygiene, personal protective devices, and COVID-19 symptoms. (cough, fever, shortness of breath, sore throat.)
- * We are monitoring all staff and clients for symptoms of COVID-19.
- * We are continuing our routine cleaning and disinfection procedures as per recommended by the Center for Disease Control.
- * We are limiting staff and visitors coming into our facility.
- * We are staying up to date with the latest information from the CDC's COVID-19 web page: www.cdc.gov/coronavirus.
- * We are encouraging patients and staff to share all questions and concerns related to COVID-19.

We thank you all for everything you are doing to keep yourself and your family safe. Please feel free to contact our office if you have any questions. 909 258-9272.
